In each unit, there is a button for emergencies. When this button is pushed, it is supposed to notify the guard gate that there is an emergency.

However, due to equipment problems and the age of the equipment located in each unit, the system is not working properly. Therefore, if you experience an emergency, you need to call 911. Do not rely or use the button in your unit.

There is no longer a permanent guest list. The new Wynmoor Gate System brings greater security to our community. Unit owners or tenants are responsible to call in their guest, including aides/nurses, cleaning people, personal transportation, realtors, contractors and vendors.

Re-elect
Mark BOGEN
 ★ ★ ★ COUNTY COMMISSIONER

Dear Wynmoor Residents:

It is my honor and privilege to represent you as your County Commissioner. During my first term of office, I made great strides on issues including:

- ✓ **Successfully fought against Waste Management's proposal to put untreated liquid toxic waste in a deep well.**

Waste Management applied to the state to get a permit to dispose of untreated toxic liquid waste. I worked to stop them from moving forward with this proposal.

- ✓ **Worked to stop the expansion of the turnpike outside of Wynmoor's property.**

The State of Florida wanted to expand the turnpike where the barrier wall would only be five feet from Wynmoor's property. This project has been stopped.

- ✓ **Co-Sponsored a Senior Real Estate Tax Exemption** to save you money on your real estate taxes.

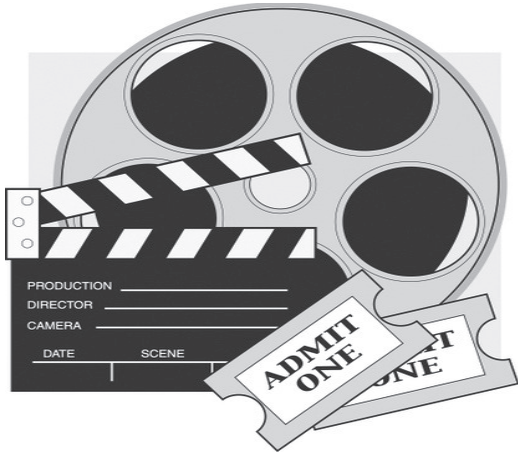

- ✓ **Worked to stop Waste Management from putting unlimited amounts of waste in Mt. Trashmore.**

After my election – I worked to stop Waste Management from putting an unlimited amount of waste in Mt. Trashmore. Now, Waste Management has limitations as to the amount of waste that can be put in the landfill.

- ✓ **Voted to Increase Transportation for Seniors**
- ✓ **Exposed Scams aimed at Seniors.**
- ✓ **Many other issues....**

I would be honored to serve as your County Commissioner and I would appreciate your vote on August 28th.

A Magic Moment

By Phil Edwards

Spring 2018 - the worst flooding in Southern New Brunswick, Canada. Good friends videotaped from a boat, their cottage of 47 years, being battered by waves and then forced off its foundation and wrapped around a large oak. A week later, an excavator put it on a dump truck. Other friends had the front part of their cottage ripped away from the structure and thousands experienced water up to the ceiling rafters. To add insult to injury, cottages are not offered flood insurance.

We had two feet of water in the basement that swelled to three-and-a-half feet up the drywall. As fate would have it, my wife retired last year and so we spent August and September putting in drywall throughout the whole basement. This year was the first year we could come early, and we spent May tearing out the lower 4 feet of drywall we put in last year. Drywall is not pleasant to work with and wet drywall is downright miserable to handle. It breaks up in your hands and leaves a wet chalking powder on your clothes.

We had already taken two loads of wet wretched drywall to the dump. After two hours of loading another batch in the van, we took a break on our patio. In front of us was an ageless old forty-five-foot apple tree. We almost cut it down because numerous limbs had fallen, and it looked in terrible shape. However, children and grandchildren use it as their swing. After years of pruning, all the dead branches were off, and it looked almost healthy.

Today it was full of beautiful white apple blossoms. Because of work, we had never seen the tree in early Spring. We were pleasantly surprised by this natural cycle of nature. Suddenly, a gust of wind rose up and blew thousands of the white blossoms off the tree. They fell all over the ground, the porch and us. It was like a white-out from snow falling. We sat there in our dirty clothes that were encrusted with residue of wet drywall and smiled as the apple blossoms covered us. The fragrance was sweet and enchanting. We looked at each other and I said to my wife, "that was nice." And it was.

GREAT GREENS

By Kevin Battersby, PGA

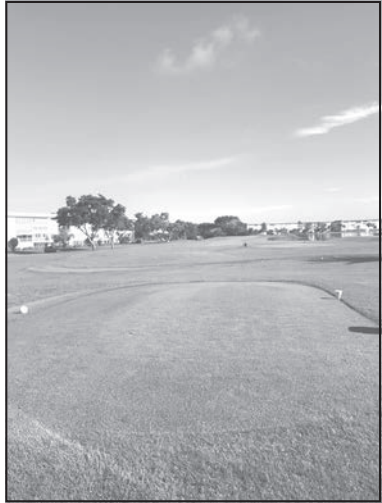

Approximately 6 weeks after new greens were sprigged with Platinum Paspalum the new grass is thriving with the summer heat and rain. Sometime in July the new greens will be open for play completing the final transfer to the new Paspalum greens on all 18 holes at Wynmoor. The contrast between the new tees and greens really defines the holes.

The various tees that were sodded this year are now open for play and look very healthy.

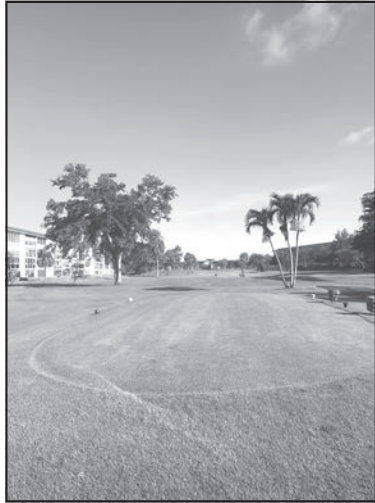

Congrats to JB and his staff.

The Unsung and Unseen Heroes of Public Safety

By Sheriff Scott Israel

Earlier this year, the Broward Sheriff's Office Regional Communications Division was selected by the Florida Association of Public-Safety Communications Officials (APCO). The APCO is the world's oldest and largest not-for-profit professional organization dedicated to the enhancement of public safety communications, as their 2018 Team of the Year.

The team was selected for the hard work, professionalism, and dedication they displayed during the shooting at Fort Lauderdale/Hollywood International Airport on January 6, 2017 where they deftly managed 135 calls from panicked citizens, witnesses, airport employees, family members and victims that flooded the regional 911 system during the chaotic moments of the shooting. Operators provided anxious callers with guidance, comfort, and empathy.

Simultaneously, hundreds of officers and other first responders were deployed countywide to assist with the event from approximately 31 municipalities in Broward County. Off-duty Regional Communications Division staff promptly responded to assist during the incident.

The honor reaffirmed what I have known since we launched Broward

County's consolidated dispatch system in October 2014: it is not only working but it is exceeding expectations and providing some of the best 911 services in the country.

Residents and visitors alike are receiving more efficient and effective responses since we merged eight public safety answering points (PSAPs) and 29 cities transitioned into just three regional PSAPs, located in Coconut Creek, Sunrise and Pembroke Pines. These three regional sites now operate under common call taking and dispatch protocols and common technology platforms.

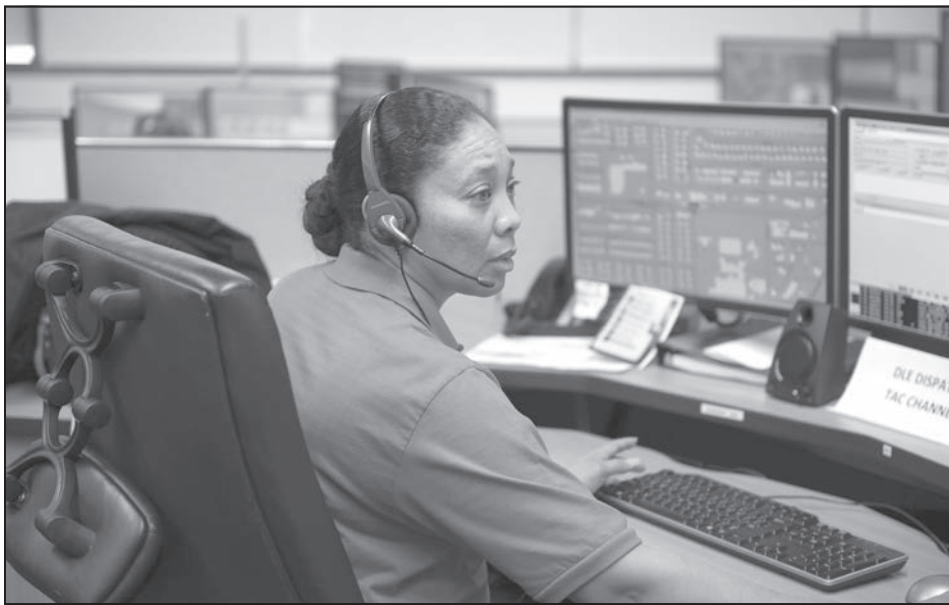

The effort was a gigantic undertaking but has proven to be a vast improvement over the previous fragmented system. Each day, our call takers handle roughly 7,500 calls. That's a staggering 2.5 million calls a year. But they handle the load with professionalism and unmatched dedication.

Today, we are more efficient and effective. Under the old system, emergency responses were often hindered, and people's lives were put at risk because calls would be directed to the wrong answering center and would need to be transferred. The new system has virtually eliminated the need to transfer calls.

Creation of the regional system also streamlined and reduced staffing levels by more than 100 employees. We increased accountability for staff through transparency and a countywide ticket tracking system to track concerns, complaints, and trends. As a result, total call processing times were reduced by approximately 30 seconds, and the clear majority of 911 emergency calls are now answered in 10 seconds or less. In fact, a recent study shows we produce some of the quickest answering times and exhibit one of the best performance levels of any large 911 center in the nation.

This, of course, would not be possible without the dedicated 911 operators and dispatchers. They truly are the unsung and unseen heroes of the agency, tirelessly navigating stressful and chaotic circumstances to serve as the critical link and vital lifeline between our community and emergency services. These workers undergo months of intensive training to learn the ins and outs of public safety.

I've long known their importance and value to public safety, and I'm glad they are finally receiving the outside recognition they have earned and very much deserve.

City Matters

By Commissioner, Mikkie Belvedere

Happy Birthday and Happy Anniversary to all celebrating this month including my granddaughter. The most patriotic holiday this month is Independence Day, July 4th. It's the day of the publication of the Declaration Of Independence from Britain in 1776, declaring us a free and independent state.

If you are one of our French residents, you will be celebrating "Bastille Day" on July 14th. The Bastille was a state prison in Paris and on July 14, 1789 an angry mob stormed the prison, making the day a uniting point in the French Revolution. Today, it is a celebration of the unity of the French people.

If you love blueberries, this is "National Blueberries Month." On July 7th is "Chocolate Day" and on July 30th is "International Friendship Day."

Don't forget that we are in Hurricane season. Be prepared.

Get ready for the primary election in August. Some very important local candidates are running for the judiciary, for Governor and more. Get acquainted with the candidates so you can be an informed voter. Expect at least 24 Amendments from Tallahassee and the County in the November election. One of these is a Penny Transportation Tax from the Broward Commission. For more information, go to broward.org/

pennyfortransportation

You can check out what is expected for Coconut Creek on that website.

Also, I highly recommend that you vote by mail. This will give you the opportunity to stay home and study the ballot at your leisure. You can check your voting status by going to www.browardsoe.org or you can call 954-357-7055.

If you are looking for exemptions for your property, the Property appraisers office has a representative in the Wynmoor library on July 26th from 10:00 AM - 12:00 PM. You need to present a current driver's license, and/

or a current voter registration card or declaration of domicile. Non-US citizens must provide proof of permanent residence.

Windmill Park should be open by now. It offers wonderful amenities for biking, walking, tennis, basketball, dog parks and a place to relax. The children are enjoying the city's Summer camps. We slow down a little for the Summer, but Commission meetings are still on the second and fourth Thursday of the month at 7:00 PM.

For questions, suggestions, and comments, I can be reached at 954-803-7696 or mbelvedere@coconutcreek.net

Have a great day and keep smiling.

The DEADLINE for ads and articles submitted to the INSIDER newspaper is the 10th day of the month preceeding an issue.

Our first preference is email in docx. format to: wynmoorads@aol.com PLEASE type, if possible, in upper & lower case, or, please print clearly.

If the 10th of the month falls out on a weekend, we will check the INSIDER box in the clubhouse, near the Library, the following Monday.

Thank you for adhering to the deadline!

Dear Dr. Joy...

By Joy Berke Sanchez, PhD

I was recently asked about a situation that a friend of mine is in and I would like some feedback for her from others who have dealt with this.

My friend has been a snowbird here for many years and for quite some time, her husband has been wanting to move to Wynmoor as a permanent resident and give up their home up North. She has been adamantly against this for many reasons. Aside from having longtime friends there, the children and grandchildren live close. There is, of course, the issue of spending those hot, humid, and very long summers in Florida. Well, an incident happened that led her to believe for health reasons, it would be better to live here so the decision has been made. She is not happy. He is very happy.

We talked about the practical issues of selling her Northern home and how this would cut expenses so significantly that she would be able to fly up every month if she wanted to and spend time with her friends and family. This is definitely different from having one's own home and settling in for the Summer, but at least it's something.

There are two main issues here as I see them. One is adjusting to permanently living in Florida with all its pros and cons and the other is dealing with resentments due to seeing this as being forced to do something she really does not want to do. Adjusting to living here seems secondary to me, as she has been living here for a long time and has established friendships and enjoyable activities. So, the real question is about dealing with her bitterness and unhappiness that a situation arose that she sees herself with no choices. Also, the fact that someone else is getting what he wants while she is not.

Isn't this the same, or at least similar to, what often happens in any relationship when what the two people want are mutually exclusive? Doesn't this happen often about various things? How is it handled? Is there always going to be resentments when one person gets his/her way and the other one

doesn't? Does it have to be like that? How big or important does an issue have to be to cause resentment? There are many decisions that two people make all the time where one person has it the way they want it and the other doesn't. This can include little things like where to eat or what movie to see or something bigger like which car to buy. It seems like where to live, especially in later years, is something that couples argue about a lot.

I probably don't have a really good answer here or even a not so good answer because this is a very personal issue and there are a lot of variables.

Dealing with resentment is hard. A lot of it depends on how often one person has it the way they want it at the expense of the other giving in. If this has been happening a lot in the relationship when something important comes up and the "conceder" is once again giving in, it reaches critical mass and anger sets in. If the relationship has been fairly balanced for many years, then perhaps, this problem can be talked about in a practical fashion and the way to handle it will emerge regardless of who "wins."

Life throws us curveballs all the time and if we are going to live happily and anger free, the only thing to do is deal with it as best we can and continue to focus on the things in our lives that we like and appreciate and not keep what we are unhappy about in the forefront of our consciousness. I am a firm believer that you get what you focus on, at least at the emotional level. If you keep yourself in a state of bitterness, anger, and resentment, you will continue to feel bad and it will be difficult to move on. Make a list of all the things you like about your life and think about them as often as you can. Focusing on them will make you happier and that will enable you to deal with unlikable situations more easily. I apologize if this sounds "preachy" in any way, but I have found that it is the best and really the only way to feel good.

I really do want feedback from anyone who has dealt with the issue of settling into Wynmoor as a permanent resident after being a snowbird, especially if it was not a joint decision. You can reach me at JoyB212@aol.com

Enjoy the summer.

Mothers

By Judith Bobker

Mothers of Michelangelo,
Mozart and Debussy,
Of Shakespeare, Tennyson, and Poe,
Wordsworth, Ibsen, Albee,

What pride, for them, to see unfurled,
The genius in their seed,
That gave such treasures to the world,
To see, and hear, and read,

From Aristotle and Plato,
To Franklin and Fermi,
What joy it must have been to show
Their brilliant progeny!

But what of all the mothers who
Are driven to despair
By evil deeds their offspring do,
Despite their loving care?

And those with whom I empathize,
Who bear a bitter cross,
Unfathomed grief that never dies,
A child's tragic loss?

The mother terrorized by war,
And its atrocities,
Who flees to keep the child she bore
From famine and disease?

And one on whom good fortune bends
A rainbow, multi-hued,
Who reaps her crowning dividend,
A healthy, happy brood?

But naught will change, I'm well aware,
As these few words I pen,
As long as mothers everywhere,
Keep giving birth to men.

What Is Poetry?

By Alora M. Knight

There is more to poetry
Than rhythm and rhyme.
It's a window to our souls,
Undiminished by time.

It's where tears and joys
Are clearly expressed.
It's the thoughts that ordinarily
Might be repressed.

It can be set to music,
Increasing its worth,
Sending joy to the heavens
That encompass the Earth.

You can make almost anything
Become immortal
By poetic words
Sent over the portal.

So put down your thoughts
When you have inspiration.
You'll be adding your part
To the whole of creation.

Jack's Philosophy Of Life

By Jack Boss

PRIORITIES: When you have a number of things to do, make a mental or written list and set them up in order of importance. The most important item is #1 on the list and #2 is

the next most important and so on down the line. When I say the most important, I mean the most important at the moment of making the list. It may not turn out to be the most important when you get around to doing it. You may do one from the middle of the list first because that became the most important due to timing or necessity. Making this list helps you do things in an orderly fashion and gets them done on or before the time they should be done.

HABITS: The things we do and the way we think is 98% habit. These habits are created subconsciously. Such as: we have to make a decision. Once we make that decision, we have started a habit. The next time we have to make a decision in the area we made the first decision, we will no doubt do the same thing we did the first time. Because the habit was started, we will then be making the habit stronger, more entrenched. The object, of course, is to create good habits. These little philosophies are good habits. If you can learn and practice them, I am sure you will enjoy life as much as I have.

An example of creating a habit: as kids grow up, they want to be like adults and do what adults do such as smoking. When kids hang around together in a group, they all like to be like the others. They are afraid to be thought of as different. This is known as peer pressure. So, when a few start smoking, the rest feel they have to follow. It is the wise and strong who knows his or her own mind and knows what is right and what is wrong. At first, when you smoke, it is terrible, it tastes awful, it burns. When you continue, you get used to it. After a while, it becomes a habit and it is very difficult to stop. It even becomes automatic. There are some people who will take a cigarette from a package, light it and not realize that they did so. Every time you smoke a cigarette, the habit is becoming stronger and deeper and therefore, more difficult to break. The object, of course, is to create good doing, thinking, and health habits. They will become automatic and you will always be feeling good and elated because most everything is going your way. You are healthy due to the proper habits you have established and, when you are healthy, you have no aches and pains to take away from feeling good.

MODERATION:

This, I think of more strongly than anything else (my father taught me moderation). In the things you do and think, if you are somewhere near the middle of the road, you won't get hurt. You will find the times you are apt to suffer is when you are being extreme. Too much drinking, driving too fast, diets that are too stringent, getting too far away from the conventional, just do not stray too far from the center.

My Rainy Day

By Ruth Weinstein

Today is June 7th, 2018 and because it is Thursday, I have spent the hours of 11:30 AM - 2:30 PM at Broward Collage Library. Thursday has been my "Volunteer Day" at this library for many years. This day started as a lovely Florida sunny day. At about 1:00 PM, the clouds

and thunder got progressively louder and before I knew it, it was pouring rain. By 2:15 PM, the rain was unbelievably loud and pouring non-stop.

As I thought about how to get home to Wynmoor, I looked out the door and low and behold, at the curb, was the Wynmoor bus waiting for me! I was the only passenger! As I started to slop and wade through the puddles, there came Stuart, thoughtful, kind and carrying that big umbrella to escort me safely home in wet shoes and pants.

I am writing this to publicly commend Stuart for his good humor and safe driving and to express my public "thank you" that I appreciate in an especially miserable weather condition.

To Stuart and Wynmoor, again, many Thanks!

Dear Wynmoor Residents,

In the June issue of the INSIDER, we published an article "Mentors Needed" by Roz Greenberg. We wanted to let you know that the article was actually submitted by Kenneth Newman and not Roz Greenburg. We apologize if anyone's feelings were hurt!

Stampeding Bull Market May Slow Down...So Be Prepared

As you know, we've been enjoying a long period of steadily rising stock prices. Of course, this bull market won't last forever and when it does start losing steam, you, as an investor, need to be prepared.

Before we look at how you can ready yourself for a new phase in the investment environment, let's consider some facts about the current situation:

- **Length:** This bull market, which began in 2009, is the second-oldest in the past 100 years and it's about twice as long as the average bull market.

- **Strength:** Since the start of this long rally, the stock market has produced an average annualized gain of 15.5% per year.

While these figures are impressive, they aren't necessarily predictive so how much longer can this bull market continue to "stampede?" No one can say for sure, but there's no mandatory expiration date for bull markets. In fact, they don't generally die of old age, but typically, expire either because of a recession or the bursting of a bubble, such as the "dot.com" bubble of 2000 or the housing bubble of 2007. Right now, most market experts don't see either event on the near-term horizon.

Still, this doesn't mean you should necessarily expect an uninterrupted streak of big gains. Some signs point to greater market volatility and lower returns. To navigate this changing landscape, think about these suggestions:

- **Consider rebalancing your portfolio.** If appropriate, you may want to rebalance your investment mix to ensure you have a reasonable percentage of stocks. This will help provide the growth you need to achieve your goals and enough fixed-income vehicles, such as bonds, to help reduce your portfolio's vulnerability to market volatility and potential short-term downturns.

- **Look beyond U.S. borders.** At any given time, U.S. stocks may be doing well, while international stocks are slumping and vice versa. So, when volatility hits the U.S. markets, as it surely will, at some time, you can help reduce the impact on your portfolio if you also own some international equities. Keep in mind, though, that international investments bring some specific risks, such as currency fluctuations and foreign political and economic events.

- **Develop a strategy.** You may want to work with a financial professional to identify a strategy to cope with a more turbulent investment atmosphere. Such a strategy can keep you from overreacting to market downturns and possibly even help you capitalize on short-term pullbacks. You could invest systematically by putting the same amount of money in the same investments each month. When prices go up, your investment dollars will buy fewer shares, and when prices drop, you'll buy more shares. The more shares you own, the greater your potential for accumulation. However, this strategy, sometimes known as dollar cost averaging, won't guarantee a profit or protect against all losses, and you need to be willing to keep investing when share prices are declining.

During a raging bull market, it's not all that hard for anyone to invest successfully. But, it becomes more challenging when the inevitable volatility and market downturns appear. Making the moves described above can help you keep moving toward your goals, even when the "bull" has taken a breather.

THEATER Front Row Center...

By Selma Glass

Theater season has slowed down a bit. Broward Center's Broadway Series has ended the season with "The Illusionists." The 2018 - 2019 season resumes in October. The great "Phantom of the Opera" will open the season from October 10th - 21st. "The King and I" will play in November, and the long awaited "Hamilton" will play in December. You might not be too happy about ticket prices to "Hamilton," which will start at \$445! Yes....\$445! It is sure to be a sellout at any price! These shows are the crème de la crème of great American Theatre, so order tickets as soon they go on sale. Call the Broward Center at 954-462-0222.

The Broward Stage Door Theater, currently on Sample Road in Coral Springs will be moving in August to a new location. The last show on Sample Road in Coral Springs will be "Breaking Up Is Hard To Do," playing from July 6th - August 12th. Featuring the songs of Neil Sedaka, "Breaking Up" is set in a Catskills resort in 1960. It is the sweetly comic story of two friends from Brooklyn in search of good times and romance

over one wild Labor Day weekend. The score highlights 18 Neil Sedaka classics, including "Where the Boys Are, Sweet Sixteen, Love Will Keep It Together" and many other familiar Sedaka songs. Aaaahh...how many remember those fun days of our youth??

The first show at Stage Door's new theater will be "La Cage Aux Folles," playing August 31st - September 23rd. Stage Door's new home will be the Lauderhill Performing Arts Center, 3800 NW 11th Place in Lauderhill. The box office number will be the same: 954-344-7765. Location: State Road 441 and Sunrise Boulevard. Ticket prices will be the same. We all wish the Stage Door the best of luck in their new home and look forward to seeing their productions in the upcoming season! See you next month!

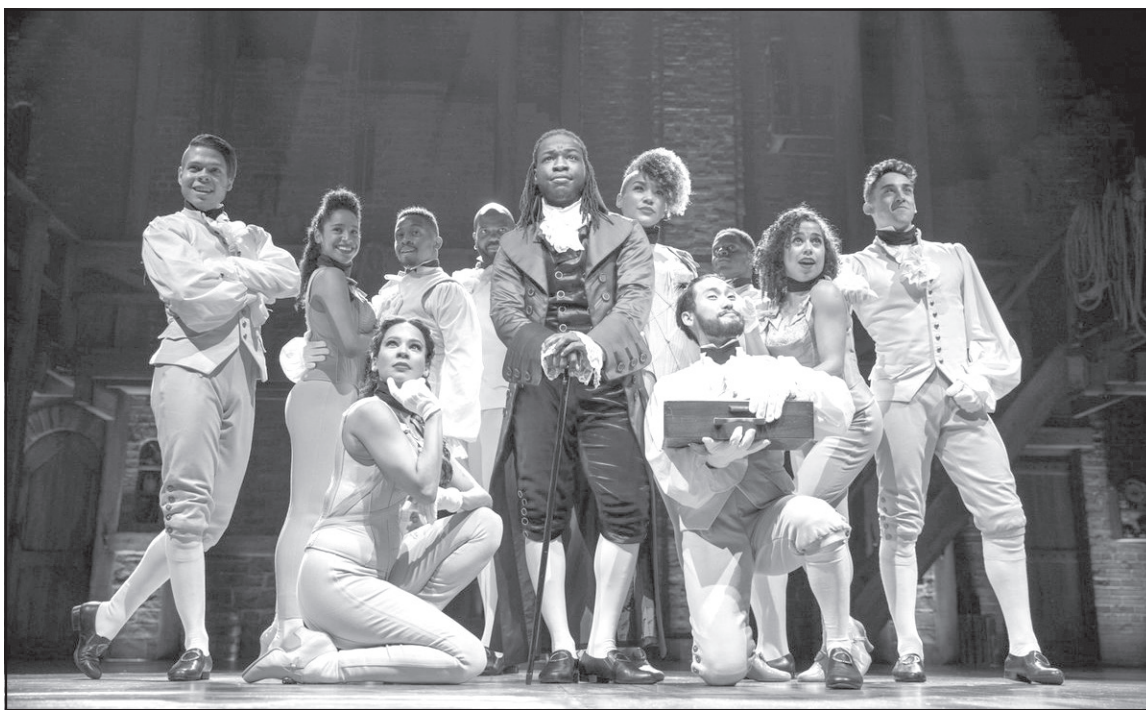

The Spoken Word

By Selma Glass

"All The World Is A Stage And All In It Are Players" - words of the Great Bard. Theater was created by the Greeks, and performed in the Parthenon, all citizens rich, poor, educated, uneducated, young, old, sat enthralled. Theater was created to be a catharsis, a place where people could feel all emotions and react. The Greek audiences would clap and laugh and cry and yell, releasing their emotions and reacting to what was going on. Theater was an opportunity to learn about the world, about how other people reacted to their circumstances. It was also historic, as Shakespeare wrote about royal families, about heroes and heroines, royalty and treachery, murder, love and laughter.

The tradition of theater has survived these many hundreds of years, although changing in form in many ways. Theater today is music and dance, pyrotechnics, and glitter, but something has been lost to a great extent, and the spoken word.

The Golden Age of the 40's

and 50's on Broadway sparked with wonderful musicals and innovative dance techniques, combining ballet and modern dance with jazz but there was more to theater in the Golden Age of Broadway. There were great playwrights: Eugene O'Neill, Noel Coward, Tennessee Williams, Arthur Miller, William Inge, to name a few. Audiences flocked to hear the poetry of O'Neill and Williams, the reality of Arthur Miller, and the sophistication of Noel Coward. They laughed and cried to the spoken word, the prolific language of emotions

and the dynamic characters created by these playwrights. Many of these theater plays were made into hit movies and won Academy Awards. Many of the actors and directors won Academy Awards. Many of these movies and plays were revived repeatedly.

Now, I have something to present to you, folks. In today's modern tech and computer world, would these playwrights be acknowledged and appreciated as they were in their day? Is "The Spoken Word" in theater a by-gone Era? Or does it still survive? You decide...

INSPIRATION STATION

By Diana Stone, M.A.

Gentle Reminder To Activate Your Reset/Renewal Button!

Dear Readers,

For the past several years, my psychic gifts have expanded. I get very strong feelings, like an intuition or I will hear a phrase or message that is meant for me to share with someone specific. For months, I did nothing with these nuggets of insight. These messages gave me an inkling into what my fellow human friends were feeling and if they didn't share it with me directly, it felt a bit intrusive and mildly insane for me to just reach out and announce "hey, this may sound crazy, but I got this message for ya from the other side if you're interested! If it's helpful, great, if it's not, then just forget I mentioned it!" But, as time went on, the messages were interrupting my own desired stream of consciousness and often took on a repetitive plea, so I took a risk and started to share my insights as they came to me. Keep in mind, I do not ask for these messages, rather they pop into my awareness like a quick commercial during a movie.

I am so grateful and clear when the messages are for me regarding my family. I consider these messages as answered prayers to an inquiry or helpful advice from one of my guardian angels. I also get regular messages about people other than my family or even close friends. I have come to understand and believe that we all have "Spirit Guides" that wish to help us navigate on this earthly journey and by being open, we can be channels of communication from the other side for ourselves and others.

One of the ironic aspects of receiving these messages is that I don't need to understand them fully as I'm merely the messenger. It is fascinating to me to take the risk of appearing crazy, share what message I have received with the intended person and watch with pure amazement the value, validation, and relief the information provides.

So, a few weeks ago I was having lunch with a dear friend who is going through several recent life transitions (death of her spouse, ailing health of a parent, children getting older, career shift etc.), and this overwhelming feeling of RENEWAL came over me as a message for her. Initially, it did not make any sense because clearly any human undergoing what she is going through, would register as "off the charts" on any psychological stress test! *If you are curious as to your own quantifiable level of stress, as measured by 43 life events, please check out The Holmes and Rahe Stress Scale Survey at https://www.mindtools.com/pages/article/newTCS_82.htm*

At first, I ignored the message of renewal. After all, I was enjoying my salad and the sweet exchange of tender support we were basking in. My intention of having lunch with her was to offer emotional support for her grief, not to be some sort of Pollyanna spewing optimistic enthusiasm for a future unclear and unplanned for! Yet, I couldn't ignore this pulsing awareness that she was at a unique crossroad of her life. As a dutiful, devoted wife of nearly 3 decades and mother for nearly 2 decades, she was now embarking upon a new terrain, where for the first time in her adult life, she could truly check in with her own needs and desire first. Even the family dog had recently learned how to let himself out to their fenced in backyard. So, as I finished my salad, I said to her, "you know, there is this odd feeling coming over me that you have this huge and wonderful RESET button that is *all for you* and NOW is YOUR TIME to activate it!" As soon as the words came off my lips, ripples of chills raced up my spine as if to validate this was indeed a message and not my own opinion! Before I could speak again, my friend's eyes watered with relief as she confirmed she too had been feeling HOPEFUL, even in the midst of deep grief and longing for her husband. She had this inner peace that was just beginning to reveal itself, like the subtle light during the dawning of a new day, that gives just enough light to inspire and awaken without begging to be dealt with. We talked about how at different life stages, especially as we grow older, and when our children leave our nests to begin their own, we can hit the RESET button of our lives and get on a course that is more in alignment with our own personal needs and visions.

During my sleep that night, I kept hearing the message again, only this time, it was meant for everyone. The message is that we all have a RESET/RENEWAL button that can be activated in any moment of any day! It is not only for a crisis, or a certain stage of life or a special occasion! It is the gift of reconnecting with our Source, our Core, our God, our True Nature, our Eternal Selves. It can be activated by simply closing our eyes, tuning inward, and taking a deep cleansing breath.

So, go ahead, RESET and RENEW! Breathe in life and let go of all that no longer serves your higher good! Much love, Diana

A Pleasant Sojourn In The City Made Famous By Abraham Lincoln

By Barry Isaac

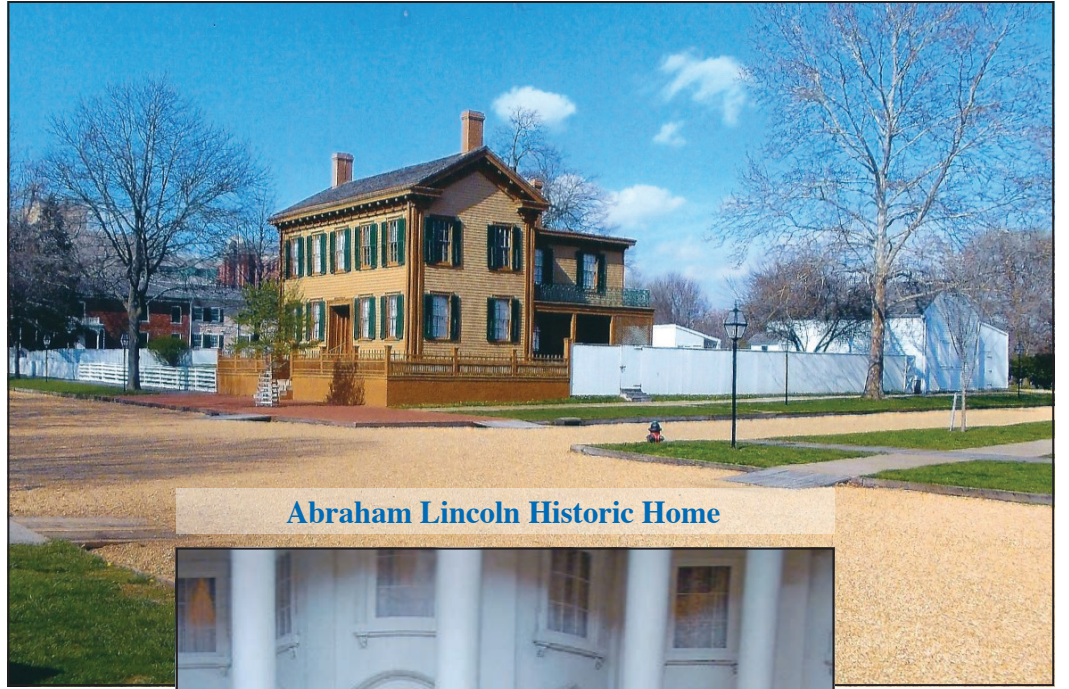

On my recent trip to the Midwest, I took the Amtrak train from Saint Louis to Springfield, Illinois. I spent a productive day in Springfield, Illinois, a medium-sized city, and Capital of the state of Illinois. I started my visit by walking from the Springfield Amtrak Station to the Abraham Lincoln Presidential Museum and Library.

At the Abraham Lincoln Museum, I learned about the early life of Abraham Lincoln in Kentucky and Indiana, his struggles to achieve his goals in life, his days as a prominent Springfield legislator and lawyer, his abhorrence of slavery, and his rise to the Presidency of the United States.

There were colorful displays, pertaining to important events in the life of Abraham Lincoln and his family. There was a fine temporary exhibit, acknowledging the achievements of the other Illinois-associated presidents; Ulysses S. Grant, Ronald Reagan, and Barack Obama. I then went to the Lincoln Presidential Library, reserved for historic researchers and I saw a fine oil painting depicting Lincoln's devotion to study by William Morton Rice.

I then preceded to go the Historic Home of Abraham Lincoln, run by the United States Park Service. At the Lincoln Home, I saw the Parlor, Lincoln's Study, and the bedrooms of Lincoln, his wife, and children. Most of the furniture in the Lincoln Home was original. It was the only home Lincoln ever owned. Although Abraham Lincoln eventually became prosperous, he remained a man of simple tastes. The area near the Lincoln Home has been restored to the way that it looked before Lincoln was elected President of the United States.

During my brief stay in Springfield, Illinois, I also visited the Old State Capitol, where Lincoln often spoke out against slavery in the United States and where Lincoln lied in state after he was assassinated. I also visited the current Illinois State Capitol and appreciated its magnificent architecture. My visit to Springfield, Illinois was a fine lesson in American History.

Making Wynmoor Real Estate and me one of the top producers in our community.
If you have appreciated my services, your referral is the best compliment.

I just wanted to take a moment to let you know what a wonderful experience I had working with Bonnie Berg. Considering she is a seasoned vet in the business for many years, she went the extra mile for my client Patricia Botero. She took the time to meet with us, review the paper work we felt explained why Ms. Botero had issues with the association approval process. She then took the necessary steps to meet with the "powers that be" and explain on her behalf. My customer and I are extremely grateful. This deal would not have closed had Bonnie not gone to bat for us.

She is a lovely, caring hard working woman and it would welcome the opportunity to work with her on future transactions. It's always a pleasure working with someone who cares and understands how collaborative the business truly is.

I know it's not often that brokers receive good news and compliments from agents about other agents but this experience changed someones life and we couldn't have done it without Bonnie!

Warm regards,
Marlena Martino

HISTORY CORNER

By Phil Edwards

The Buffalo and The Nickel

Thirty to sixty *million* buffalo roamed freely on the Great Plains, from Canada to Texas at the beginning of the 1800s. By 1885, only a few hundred survived in what is now Yellowstone National Park. What happened? The thunderous pounding of thousands of hooves shaking the ground for miles must have been a joyous life refreshing sound for the natives who lived on the plains. Buffalo was the life source for these first inhabitants. Every piece of the American Bison provided meat, tools, clothing, shelter, weapons, bedding, canteens, combs, toys, and hundreds of other useful items for the aboriginal people.

Unfortunately, these gentle beasts grazed the prairies with their young, oblivious to their coming destruction. Native Americans hunted them only for their immediate need. However, the arrival of Europeans spelt their near annihilation. Sportsmen came and killed thousands and thousands just for the pleasure of watching the beasts fall. A few trophy heads were taken, but for the most part, the carcasses were left to rot in the hot sun. Entrepreneurs followed and killed for the money that bison meat, bones and hides provided. Settlers got in the act and collected bones left behind for use in making fertilizer, fine china, and refining sugar.

It is reported that, "one firm in St. Louis traded 250,000 hides this year. The demand for bison skins escalated as a Pennsylvania tannery began commercially tanning bison hides. With this newly discovered tanning process, bison were now hunted year-round. By 1871, an average of 5,000 bison were killed each day, every day of the year, as ten thousand hunters poured onto the plains... Auctions in Fort Worth, Texas were moving 200,000 hides every day or two. One railroad shipped nearly 7 million pounds of buffalo bones."

After General William Tecumseh Sherman burnt Atlanta during the Civil War, he implemented a "scorched earth" policy as he marched his troops from Atlanta to Savannah, Georgia living off the land with few supplies. After the war, he was transferred out West. He and other army officers assaulted the native population by using this strategy to starve natives and force them onto reservations. The army adopted the scorched earth by killing the buffalo that provided the Plains Indians with food. One example of this was when "Sitting Bull" fled with his tribe to Canada to escape the army after their victory against General Custard and the 7th Cavalry at the Battle of Little Big Horn.

To make the Indians pay, the army patrolled the border between the U.S. and Canada, killing any buffalo that "Sitting Bull" and his people might use for food. After four years of starvation, the Sioux left Canada and returned to reservations in the U.S. to begin a life of dependency on the U.S. govern-

ment. It turned out to be a short-term victory for the U.S.

The gentle beast was almost gone. From nearly 60 million to only a few hundred by 1885, the buffalo were nearly eradicated from North America. Now, they are a protected species and approximately 300,000 - 500,000 exist in the United States. Tourists can travel West and see herds once again roam freely in a few national parks and wildlife refuges. To complete the experience, bison burgers and steaks can be bought at nearby restaurants or the product can be mailed frozen to anywhere in the U.S. In 1913, the nickel was stamped with an image of the buffalo on one side and the portrait of an American Indian on the other side. Those images were replaced in 1938 with the portrait of Thomas Jefferson and Monticello. There was no outcry for the change. Perhaps in the future, the buffalo will be duly recognized for its contribution to the first settlers in America and the buffalo's significance in American history. Even though I am not gambler, I would not bet a plug nickel on it. Questions and comments can be addressed to Phil at chooserrightly.com

If You Now Have Equity In Your Home, Consider Doing A Trust

By Martin Zevin, Attorney

In 2012, I wrote an article recommending against doing a Revocable Living Trust if you were “underwater” with your mortgage. Many of my clients had bought or refinanced from 2004 to 2006 at the top of the market.

However, the last six years have seen significant increases in property values. This has resulted in many homeowners now having positive equity. If prices continue to rise, many more homeowners will have some positive equity.

In the article I wrote in 2012, I advised clients to live long enough to see their properties increase in value to exceed the amount of the mortgage. At that time, they could come back to me to discuss a Revocable Living Trust. That time is now here.

Without equity in your home, it does not make sense to pay an attorney the fee and costs involved in creating a Trust, since you would be burdening your heirs with a property that has a negative equity. However, once that equity turns positive, you are doing your heirs a favor by eliminating the time and money involved in going through probate. Probate can take a year and cost thousands of dollars in fees and costs.

Remember also that the Trust is called a “Revocable Living Trust.” This means that, if you are alive, the Trust remains with you. You can always sell your home and buy a new home as Trustee of your Trust. You do not

need to change the Trust unless you want to change the beneficiaries for the new property. You can also buy additional properties, in Florida or out of state, as Trustee of your Trust.

Therefore, if you now have equity in your home, you should seriously consider creating a Trust. Transferring your home to the Trust will not change your homestead or your real estate taxes.

In addition, regardless of the equity in your home, it is extremely important to have current advance care directives to protect you if you are incapacitated. These include the Durable Power of Attorney (which must specifically include the address of your property) as well as the Designation of Health Care Surrogate and Living

Will. New Florida laws could mean that your current documents need to be revised.

Please feel free to call me for a free personal or phone consultation regarding any issues pertaining to Wills, Trusts, Deeds, Probate, Power of Attorney or Health Care Surrogate. I am also available for free consultation regarding personal injury claims or car insurance coverage. Call me at 954-569-4878. My address is 3275 W. Hillsboro Blvd., Suite 204, Deerfield Beach, Florida 33442. My website is www.martinzevinpa.com and my e-mail address is martinzevin@netzero.com See add on page 21.

An In-Depth Look At The Dirty Dozen And The Clean 15

Television's Dr. Oz and Cleveland Clinic's, Dr. Roizen, report on health, wellness and quality of life.

Lee Marvin, Ernest Borgnine and Charles Bronson were ranked as the top three members of the Dirty Dozen when the film premiered in 1967. Since then, thanks to the Environmental Working Group's annual report on pesticide levels in fruits and veggies, we've come to learn that there's little star power in that ranking, at least when it's applied to the produce we eat.

The EWG makes it clear that there are measurably risky pesticide residue levels in our food supply, even though since 1993 (and before) the government has known how toxic they can be. As a result, there have been serious repercussions: A study in JAMA last year found that a woman going through assisted reproductive technologies who eats two or more servings a day of high pesticide residue fruits and vegetables, reduces her chance of a successful pregnancy by 26 percent! Also, a 2015 study found that men seeking fertility-enhancement treatment who had the highest level of pesticide residue in their blood, had the most compromised semen quality.

The EWG Annual report on the foods with the highest pesticide residue and, thank heavens, the adjoining report on the Clean 15 can help you select the most healthful foods. Hint: You do not always have to buy organic!

The Dirty Dozen: In descending order, they are: strawberries, spinach, nectarines, apples, grapes, peaches, cherries, pears, tomatoes, celery, potatoes, and sweet bell peppers.

According to the EWG: "More than 98 percent of samples of strawberries, spinach, peaches, nectarines, cherries and apples tested positive for residue of at least one pesticide. A single sample of strawberries showed 20 different pesticides. Spinach samples had, on average, 1.8 times as much pesticide residue by weight as any other crop."

Although Environmental Protection Agency scientists recently re-evaluated the evidence about the effect of organophosphate pesticides on a child's brain and behavior, they concluded that the pesticide chlorpyrifos was unsafe, EPA head, Scott Pruitt, canceled a scheduled chlorpyrifos ban and announced that the agency would not finish its safety assessment for chlorpyrifos until 2022.

The Clean 15: The fruits and veggies least likely to contain pesticide residues included avocados, sweet corn, pineapples, cabbages, onions, frozen sweet peas, papayas, asparagus, mangoes, eggplants, honeydews, kiwis, cantaloupes, cauliflower, and broccoli.

Less than 1 percent of samples of avocados and sweet corn had any detectable pesticides. More than 80 percent of pineapples, papayas, asparagus, onions, and cabbages had no pesticide residues.

Your Shopping and Eating Guide:

1. All veggies and fruits (including triple-washed packaged greens) should be well-washed before eating.

2. Eating fresh fruits and veggies is SO HEALTHFUL that you do not want to KO

them from your diet. Opt for organic versions of the Dirty Dozen when you can, and certainly if you plan to get pregnant within the year or are pregnant or nursing. Aim to eat seven to nine servings of produce daily.

3. Indulge in the Clean 15! Cruciferous veggies like broccoli can help you battle cancer and keep your gastro system moving along. Avocados contain healthy fats and help stabilize blood sugar (stick with 1/4 avocado per serving). Papayas deliver serious digestive benefits with their enzyme papain, and their polyphenols such as beta-carotene while can help fight off cancer, diabetes and asthma.

4. Get informed about pesticides on organic veggies. In reaction to the EWG report, there's been agra-biz blowback (brother, is there blowback!). Pesticides used on organic crops include sulfur, lime sulfur, mineral oil, copper-based fungicides, BT (Bacillus Thuringiensis) and other live biologicals. Those pesticides leave a minor residue on produce, but the Department of Agriculture says that they're nontoxic. While synthetic chemicals like pheromones are organic-allowed, these are substantially different from the toxic synthetic pesticides used in conventional farming.

So, dish up that salad, fruit cup and plate of steamed veggies. They are key to a healthier, longer life and a younger RealAge.

Wynmoor Pool Team Continues Strong

By Bob Horowitz

Wynmoor's Team in the South Florida Senior Pool League (SFSPL) has started the Summer season with winning its first five games and are in first place.

There are 12 communities that have teams in the SFSPL; Cascade Lakes, Valencia Palms, Venetian Isles, Lakes of Delray Banyan, Bellagio, Avalon Estates, Huntington Pointe, and Century Village Boca.

Teams play on Monday nights, rotating locations among the communities. 3 tables are used by teams of two. Wynmoor Administration reciprocates with the league by allowing visiting teams to come into Wynmoor as our guests. Visiting teams are 6 to 8 players.

May 2018 Weekly Open 9-Ball Tournament results:

May 2, 2018:

Andre continues to amaze everyone with his winning the tournament multiple times in the last few months with only playing on the tournament day with no practice time between the competitions. Andre was the 9-Ball winner. Tony is back in the winners' circle after winning the 8-ball portion of the Wednesday night competition, with excellent "shot-making skills" and very good cue ball control.

May 9, 2018:

Rich, while in Florida on a short vacation trip, stopped in the Billiard Club and won the 9-ball event with speed and accuracy. One of the fastest players at the club, he went undefeated. Bob played his usual strong game to come in second.

In the 8-ball part of the tournament, Jules was the winner, due to his "shot-making skills" and "take no prisoner" attitude. Bill was second and getting better with each tournament.

May 16, 2018:

Tony won the 9-ball event undefeated. Linda was second, with only one loss. In the 8-ball, it was Jon (on left in photo on bottom) taking down the first prize with Norman, a close second.

May 23, 2018:

Tommy won the 9-ball and 8-ball event, with solid play in both finals. This just gives more credibility to the saying "he/she rose to the occasion."

I firmly believe, that in any sport, when you are faced with championship match, semi-finals, or finals competitions, it will bring out the best or worst in a player. Richard was second in 9-ball with a "never give up" attitude and is always in the running. The runner-up in the 8-ball portion was Bob.

Join us every Wednesday night starting at 6:00 PM for open 9-ball play. This is open to all levels of players from beginners to advanced.

Congratulations!!! To Our Winners, In No Particular Order Below!

Our Partnership With The Dan Marino Foundation:

The Broward County Property Appraiser’s Office is excited to partner with the Dan Marino Foundation to host a meaningful internship program for adult students with developmental disabilities. This intern initiative was designed to provide eight students with on-site practical experience and training in areas related to their specific field of study.

Utilizing the valuable skills learned during the internship, the interns working in our Customer Service Department, are now able to assist homeowners with processing exemptions and researching exemption eligibility. Under the guidance of one of our Customer Service Representatives, one of our interns helped property owners file for Homestead Exemption and explained the benefits of this important tax-saving exemption.

The interns in our IT Department work with our staff setting up computers, replacing toner cartridges throughout the office, backing up data files and answering help desk requests from our appraisers. Our Residential Department is fortunate to have two interns who have been researching property information to assist our Value Adjustment Board team. With supervision, these interns have been pulling comparable sale information and researching characteristics of various comparable properties. After compiling this data,

they organize the information into packets for our team members to review and approve, and then use as they prepare for Value Adjustment Board hearings.

BCPA is fortunate to have each of these interns and their job coach working side-by-side our staff through a hands-on approach to gain valuable job skills. Our sincere appreciation to the Dan Marino Foundation for partnering with BCPA on this important endeavor. My staff and I look forward to continuing this partnership.

Exciting News Coming From Our IT Department

Our IT Department has been hard at work developing a new and improved website. This website will be responsive to both tablets and phones, meaning you will have access to important property information wherever you may be. The website will still contain all the important information you are accustomed to but include modern search features, easy to use applications and additional data specific to each property. We are in the testing phase of this website and will be sending it out to various stakeholders in the community for beta testing in the coming weeks.

If my office can ever be of assistance to you, please do not hesitate to contact me directly at 954-357-6904 or by email at martykiar@bcpa.net

You Can Make A Difference

By Madeline Daryadel and Roberta Mintz

Meet Roberta and Madeline: two Wynmoor residents who had an epiphany (a moment when you suddenly understand something) after attending a series of lectures about saving the planet on Earth Day, 2018 at the University of Miami. We realized the complexity of the problems(s), but we also understood that we, as individuals, could make a big difference by the simple choices that we make daily.

Mary, a great friend and cook, had invited us to dinner when her daughter was visiting from California. The conversation went from politics to personal then during a lull in conversation at the dinner table, we shared our adventure and thoughts about the series of lectures. Recycling became a hot topic at the table! Was it really working at Wynmoor? Everyone at the table had something negative to say. "All you have to do is look in your garbage room to see it isn't working. Sure, newspapers are in the blue bins, along with some plastic bottles and cans, said Debbie, but they are usually wrapped in plastic bags which are not biodegradable. So, what's the point?"

Can you believe a group of women were sitting around a table talking about recycling? By the way, we found out the next morning that some of our friends were still talking about it. That's when the idea to write this column was born.

There are 5,000 units at Wynmoor. Individually and collectively, we can make a difference. Time to talk about something besides the weather to our friends and neighbors. Just as we are sharing the recycling issue with you, you can do the same. It's contagious, in a good way. Be prepared to listen; most people will express the same concern. We know that the environment conversation is overwhelming. There are so many issues: global warming, the air and water pollution, the rising ocean, however, you and I can make a difference, even if it's just separating our trash.

Why recycle? Good question! Recycling helps to reduce pollution and is very important as waste has a huge negative impact on the natural environment. Harmful chemicals and greenhouse gases are released from rubbish in landfill sites just like the one next door.

Let's do it for ourselves, our children, grandchildren and future generations. This is a global issue that affects everyone.

Next time you go to Publix, bring back those plastic bags that you are piling up and ask for paper bags or better yet, bring your own grocery shopping bags. Recycle your plastic and glass bottles (without the caps), your yogurt and cottage cheese containers (don't forget to rinse them out), breakup those cardboard boxes and buy items that are packaged in glass instead of plastic.

"Did you know the do's and don'ts are featured on www.mywynmoor.com/

recycling or check out the Recycling List I provided for you, following this column. Cut the list and paste it to your fridge.

Did you know that Florida is *not among* the states that have mandatory recycling laws? Only California, Connecticut, Delaware, Hawaii, Iowa, Maine, Massachusetts, Michigan, New York, Oregon, and Vermont have passed laws that establish deposits or refund values on beverage containers while other jurisdictions rely on recycling goals or landfill bans of recyclable materials.

Did you know it has been a year since California banned most stores from handing out flimsy, single-use plastic bags to customers. It was the first, and remains the only, U.S. state to do so. This momentous change was not a big deal but *Something to think about*.

Look for more thoughts next month on how we can all help save this precious planet for future generations. Ideas and comments are warmly welcomed. Just drop them in the Insider box inside the office near the library.

Don't Trust Your Caller ID And Other Musings For This Month

Caller ID:

I was at a city event a little while ago and I had the pleasure of a Wynmoor resident wishing me a "Wynmoor Day!" We got to talking about crime prevention and he asked me if the bad guys could manipulate your caller ID? I said, "of course! They do it all the time!"

Now, I'm not sure how they do it but I'm not sure why the sky is blue, yet I know it's blue. Con artists have "hijacked" land line phone numbers for utility companies, sheriff's offices, and police departments. When they call, it'll look like it's a local number. They'll even go as far as to research the names of the top brass at the sheriff's office or utility company and tell you that they are them. Usually, they'll call and demand money due to some "bill" or "fee" that they claim you never paid. It's just a scam. No utility company or law enforcement agency would call you up and threaten jail time for an unpaid fee or if you "never showed up for jury duty," another one of their favorite threats. So, if you get a call like those, just hang up.

Proper Medication Disposal:
I was very impressed with the attendance at a recent Drug Take Back and

Document Shredding Event we did with the Broward Sheriff's Office on a recent weekend in June. Cars were lined up as far as I could see! I always get the question after one of these events, "what do I do with any medications I want to get rid of if I missed the Drug Take Back?" Well, the first thing I would encourage you to do is talk to your pharmacist. He or she may know of a drug disposal bin where you can place any unwanted medications. If you have any pills you want to get rid of, kitty litter is my favorite method! Yes, cat litter. Mix your unwanted pills with a nice amount of cat litter. Don't worry about crushing the tablets or capsules. You don't have to. Place the mixture in a sealed plastic bag, like a zip lock bag, and then throw it in your household trash. The one thing I don't want you to do is flush any medications down the toilet. That's bad for our water supply.

Document Shredding:

If you couldn't attend the event and have some documents you need shredded, there are several places in Broward County where you can take them and have them shredded at an affordable price. You can also buy a decent home shredder at any local office supply store. The prices are coming down since at-home shredding is getting so popular.

One of my favorite tricks is to fill a bucket full of hot, soapy water. I place papers I want to shred into the water and let them soak for a little while. When I get them out I rip them up and roll them into little balls about the size of a golf ball and let them dry. Believe me, Superman wouldn't have the strength to peel one of those little paper balls open after they've dried! My information is safe! Have fun and I'll see you next month!

Why not join us on the second Sunday of each month, at 10:00 AM in the Grand Ballroom to see what we're all about?

If you are interested in our club or have any questions, please call me at 954-972-6748.

BOOKIES

By Edythe Rishin

Join us on July 3rd at 7:30 PM in Ballroom C as we start the holiday celebration with our critique of *City of Endless Night*, an old-fashioned murder mystery, by Douglas Preston and Lincoln Child.

Then, on August 7th, we will review *The Woman in the Window*, by A.J. Finn, a diabolically gripping drama in which no one and nothing is what it

seems.

On September 4th, the book to be discussed will be *The Art of Hearing Heartbeats*, by Jan-Philipp Sendker. This is a poignant and inspirational love story that spans decades from 1950 until the present.

For further information, call Laura at 954-917-7677 or Edythe at 954-978-9824.

We play our social duplicate games on Tuesday at 12:30 PM in the East Wing and Friday at 12:30 PM in the West Wing.

Congratulations to our members, Charlotte Salmansohn and Michael Gale for joining the 70% Club (74% game) and Nancy Starr and Sondra McCloskey for a 76% game.

We just recently donated so many beautiful creations we have made for others to enjoy. Here is a brief list of who we donated to: The Nursing home got 10 Shawls, 11 lap blankets and 6 neck warmers. Respect Of Life received 2 dresses, 3 sweaters, 14 blankets, 9 hats, 4 premie hats, 5 booties, and some mommy slippers. We also donated 50 chemo hats. If you have yarn that you don't use, we will be happy to take it. Just call Barbara at 754-222-6375.

Thank you to everyone that have donated yarn. As you can see, it all goes to great causes. Thank you especially to all our knitters and crochet people that are so busy!!

Pickleball Club

By Sandra Cohen

Did you know that Pickleball is the fastest growing sport in the country? Although people of all ages play the game and some even participate in local and national tournaments, it is most popular as a friendly competition and recreation with seniors.

Played on abbreviated tennis courts with a small, hard paddle and light-weight plastic balls, Pickleball is great fun and provides excellent exercise.

If you want to learn to play the game, and if you have time on Sunday mornings, come to the Pickleball courts for FREE lessons any Sunday from 9:00 AM to 10:30 AM. We even supply racquets and balls for the lessons. We hope to see you soon.

Tennis Club

By Shelly Propper

July is hot and humid but there are still tennis players on the courts both mornings and evenings. There are Round Robin games being played on certain courts in the morning while the other courts are available for singles or doubles play.

Wynmoor Hurricane Emergency Net

By Ralph Trapper

It's July 2018, and we've already had one named storm, Alberto, for this season. The forecasters are calling for another moderate to strong storm season, but keep your fingers crossed that Wynmoor will again escape severe storms.

We had our 2018 equipment issue breakfast on June 20th and we had a good turnout from both our operators of past years and some new people interested in assisting their neighbors. Our first "On the Air" meeting will be July 11th at 7:00 PM.

We're still seeking a few good people to bolster our ranks. The commitment we ask is to check in most Wednesday nights for 10 - 15 minutes for radio training and to be available to serve **after** the event of an actual weather emergency.

If you'd like to assist us or you're a previous operator who couldn't attend the breakfast meeting for instructions, please contact Ralph Trapper at 954-972-4329 or Gerry Soloff at 954-973-4899.

Wynmoor Video and Film Club

By Enid G. Wolf-Schein

Things are quiet this time of year, but plans are still going forward with our "Wynmoor Short Film Festival" to take place Wednesday, January 30, 2019 at 7:00 PM.

We will start out with the films in the Country Club Lecture Hall and then there will be a reception with the Directors in Ballroom C. We will alert you when tickets become available.

Entries are still being accepted for short subject films. If you would like us to review your film for our festival, contact Enid Wolf-Schein at scheinej@aol.com

All subjects are welcome. We want an interesting variety.

Keep it short, no longer than eight or nine minutes. If you have an idea you would like considered, get in touch with us.

If you missed the Dance Troupe's performance of "That's Entertainment" on March 7th and 8th and would like a 90-minute disc of the entire performance, contact Enid Wolf-Schein at 954-978-1368.

1705 Andros

By Marilyn Stahl

FYI: Hurricane Network: Les Resnick J2 is a member. During the season, after a hurricane, if all other means of communication are not functioning, he has a radio to keep in touch with Wynmoor Services and 911, if needed.

Our Lunch Bunch is planning a get together at Max Grill.

Wishing our very own Les Resnick a very happy and healthy birthday. His family is planning a family cruise in August. Happy sailing to them.

Once again, we send our thanks to Angela Papa, our director who keeps a very watchful eye on our building and our residents.

1205 Bahama Bend

Isdelia Avellz (Penny)

Puerto Rico had been my home for 40+ years.

On March 15, 2018, two days after my birthday, my mom of 101 years passed away.

I had taken care of my mom for more than 15 years.

One day in April, it hit me. I said aloud, "Ok Penny, mom's gone now. You need a new beginning." Who ever said "life is for the young" had no clue what they were saying.

After much research with my realtor Maribel Eaton, we found "Wynmoor." We went on a tour and after seeing all that Wynmoor had to offer, I knew immediately, here is where I wanted to start my new life.

One Sunday, I visited the main pool with my daughter. Everyone I encountered was so friendly. There was music playing, people dancing, and laughter in the air. I exchanged telephone numbers with a few residents and planned to meet again.

That day, I knew I had made the right choice. Thank you Wynmoor.

1803 Eleuthera The Hard-Working Landscapers

By Maralyn Wallace

The beautification of Eleuthera Point landscape was done to the perfection, due to the hard work of Grace petruzzi, Susan Rosenfeld and JoAnn Albea. Thank you for making our building attractive.

Victoria Federation

By Marilynn Stoloff

Victoria Federation was proud to recognize Rose Ortiz and her 9 years of dedicated service that she served as President. The pool and surrounding grounds are the social center which unit our 10 independent Associations.

We look forward to hearing from your building. **Send us an email:** wynmoorads@aol.com or... put a neatly handwritten letter (upper/lower case) in the INSIDER Box, located in the Clubhouse near the Real Estate Office.
